### AVAILABLE IN:

**50 lb. bag | 2000 lb. tote | Other: \_\_\_\_\_ lbs.**

## Application Instructions:

This product is intended for use in a comprehensive fertility program as dry application onto soil or as side dress.

## Fruits and Vegetables:

Broadcast 300 - 400 lb. per acre 1-3 weeks before planting. Blend with other fertilizer according to soil test.

## Broad Acre crops:

*Forages:* Broadcast 200 - 400 lb. per acre, preferably at spring green-up.

*Corn:* Apply 100 - 200 lb. per acre in the planter's dry fertilizer applicator; apply directly on the row.

*Food Plots:* Broadcast 300 to 400 lbs. per acre in spring and / or summer.

*General:* Broadcast 300 to 400 lbs. per acre, or side dress at 100 - 200 pounds per acre.

## Garden / Perennials / Lawn

Garden: Broadcast 10 lb. per 1000 square feet, 1-2 weeks before planting or 2-3 lbs. per 100' of row at planting.

Established Perennials: Apply 2-3 lbs. per 100' of row in the fall.

Lawn: Broadcast 10 lbs. per 1000 square feet in spring and again in summer if needed for more growth.

**Mixing and Handling:** Compatibility or performance cannot be guaranteed when combined with other products.

Store in cool, dry area out of direct sunlight. Do not store in blended form with unapproved materials.

*This product is intended to comply with the National Organic Program (NOP) rules. Verify with your certifier before using.*

### BULK DENSITY:
